

Successful staffing of temporary management tasks and projects

Competence, capacity and experience

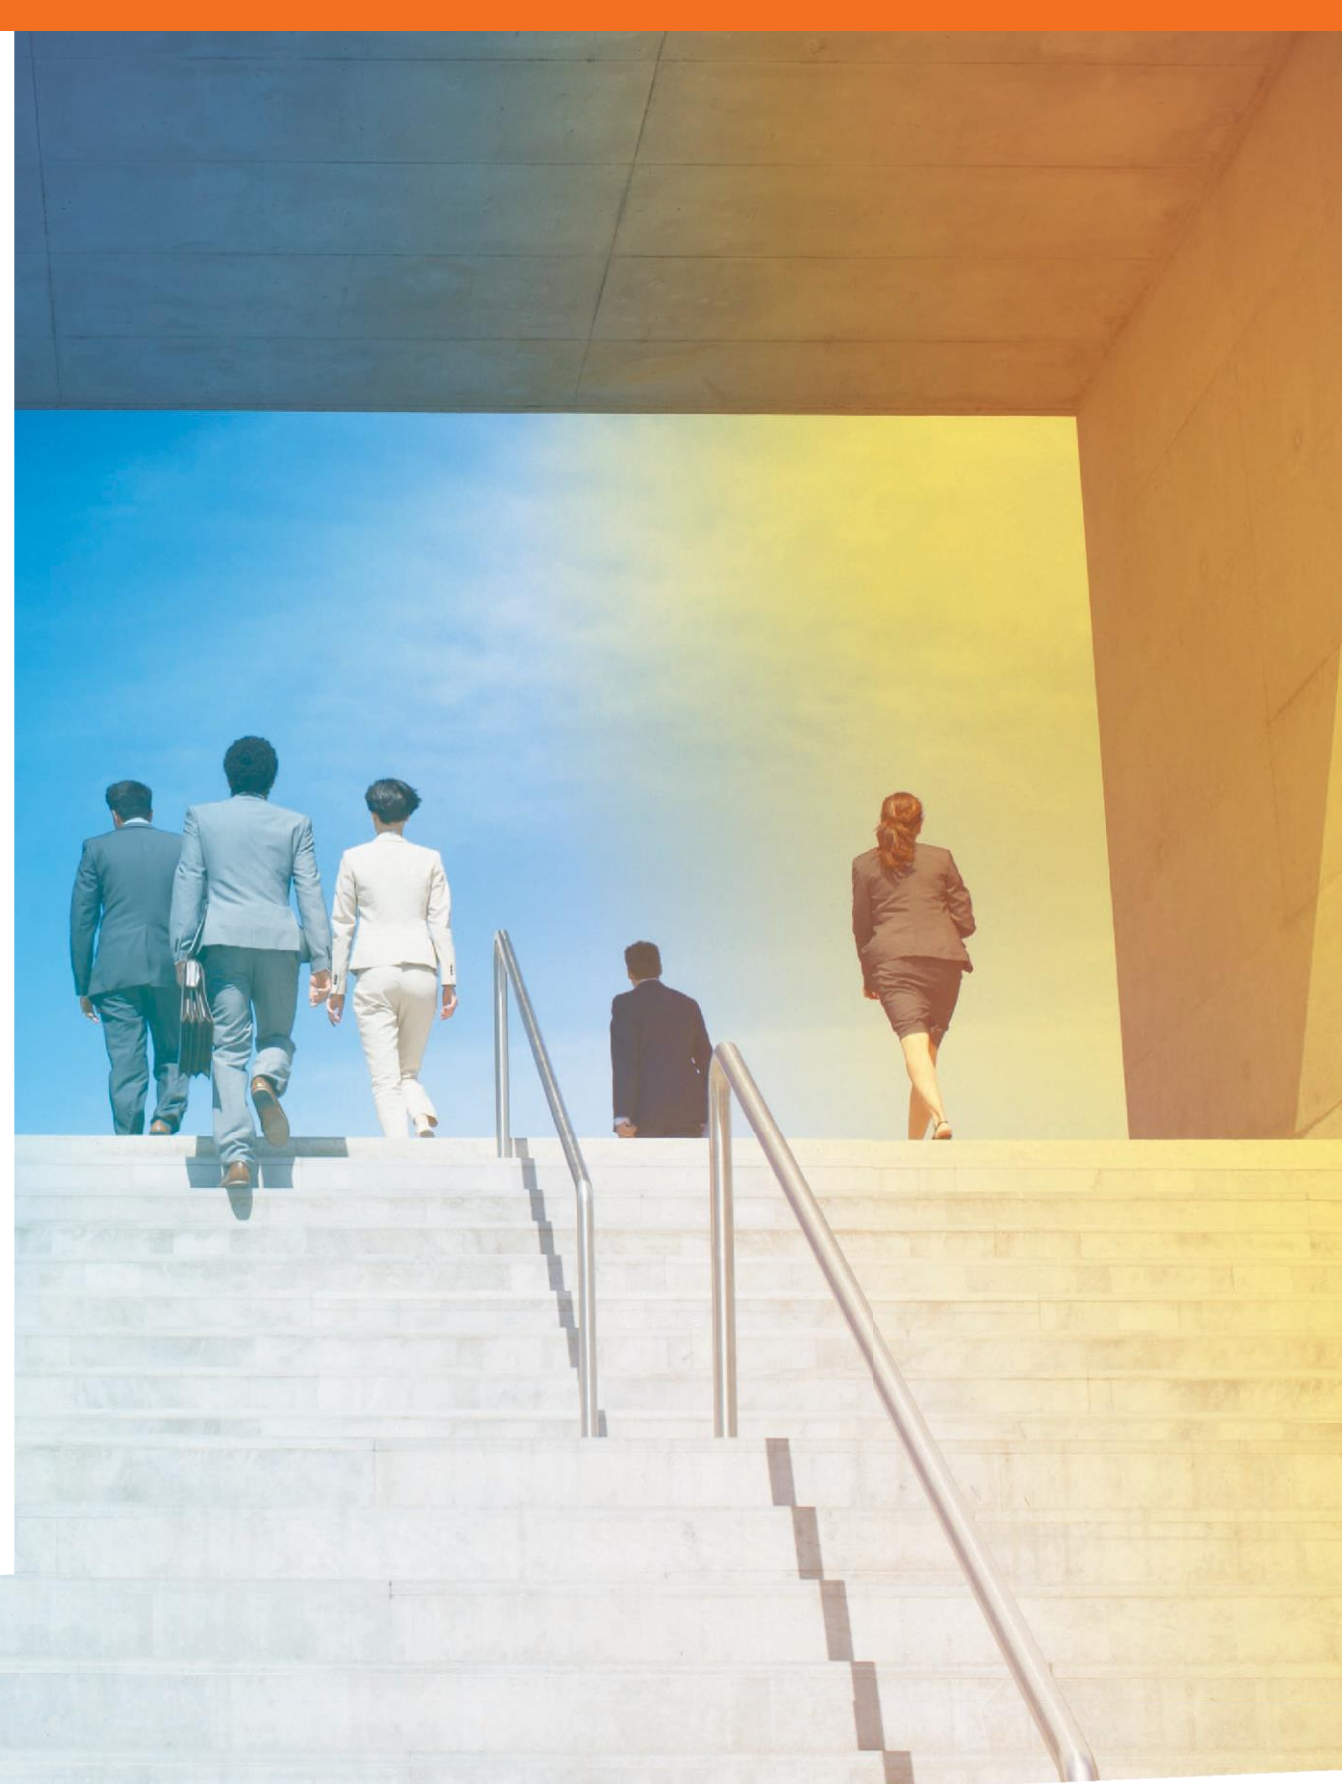

Do you need to fill a management position at short notice?

Are you looking for a specialist for a specific subject area?

Do you need an experienced manager for an important project?

Are you looking for competent support for a transformation program?

We have the right managers for you.

With over 1,800 chosen **INTERIM EXECUTIVES** and over 6,000 qualified INTERIM EXPERTS, we offer you the following:

- ➔ High-performance managers and experts with experience in almost all industries and positions
- ➔ Convincing personalities with excellent professional, methodical and social competencies
- ➔ Quick selection, tailored staffing and flexible contract models

Management needs

1.

A shortage of resources

2.

A lack of expertise

3.

Urgent vacancies

Let us know your requirements.

Whether the need is for interim line or project management – we provide effective management solutions for all sectors and positions.

Flexible solutions for temporary management and leadership tasks

A shortage of skilled workers, transformation programs, peak performance and volatile needs pose a challenge for companies to always have the right competencies and capacities available.

In a dynamic economy, no portfolio fits as perfectly as professional interim management.

Our managers take on challenging temporary tasks in line management and in the management of complex projects and programs based on defined targets, schedules and fee structures.

Line management

Many management tasks are unforeseen and time-sensitive.

Internal management generally functions at capacity and it would be inefficient for a company to retain redundant capacities.

Project management

The number of important projects continues to rise, but only 30% of these achieve their objectives.

The management of strategic projects requires competencies and experience.

The speed of implementation with internal resources is not satisfactory.

Sustainable contributions to the company's success

As a premium provider of temporary management, taskforce specializes in the placement of top-class Interim Managers.

With our network of highly qualified **INTERIM EXECUTIVES** and **INTERIM EXPERTS**, we offer tailor-made management solutions for your challenges.

INTERIM EXECUTIVES

taskforce **INTERIM EXECUTIVES** can look back on successful C-level careers and represent the best in their field. With many years of management experience and proven expertise, they lead programs, complex projects, tasks and teams at management level to achieve agreed objectives.

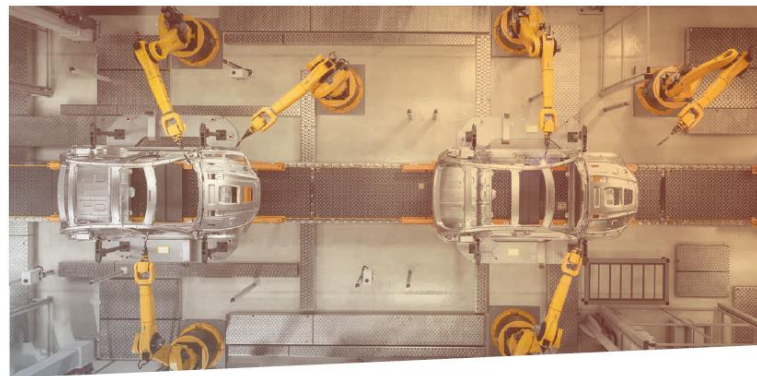

INTERIM EXPERTS

taskforce **INTERIM EXPERTS** have successfully completed numerous projects and mandates and are also among the best in their field. With extensive operational experience and a high level of professional competence, they implement tasks and projects and support teams with know-how and commitment.

We offer the right solution

taskforce – Management on Demand AG was founded in 2007 by Jens Christophers among others, who today runs the company together with Kristin Gölkel.

As an international consultancy with 130 partners, we are constantly investing in processes and digital technologies and expanding at an above-average rate in the fast-growing market.

With our ***Home of the Best* approach**, we find, retain and deliver outstanding leaders and experts for our clients' management challenges.
